ABORTION PILLS MIFEPRISTONE (RU486) MISOPROSTOL (Cytotec)

Improves Safety of Abortion Procedure

, we reach you every where you are, our motto towards healthy is (WE SERVE TO SAVE) +27717852514

Abortion pills RU486 (Mifepristone) and Cytotec (Misoprostol) came into use in the early 1990s. RU486 alone or with Cytotec gives excellent results when used correctly.

RU-486 (Mifepristone): within 4-7 weeks of the last menstrual period.
