RU486 alone or with Cytotec gives excellent results when used correctly. RU-486 (Mifepristone): within 4-7 weeks of the last menstrual period. SAFE ABORTION PILLS FOR SALE IN MAMELODI Also called “the abortion pills mamelodi.” This drug interferes with levels of progesterone, a hormone that keeps the foetus implanted in the wall of the uterus “Morning After” Pill: sometimes used in rape cases Up to 72 hours after intercourse, a woman is administered large doses of birth control pills (or levonorgestrel, also known as Plan B) to prevent the embryo from implanting in the uterus wall. Twelve hours after the first dose, a second dose is given. Large doses of birth control pills work to prevent ovulation and hinder sperm motility. Abortion Services WOMENS ABORTION PILLS MAMELODI Medical abortion pills mamelodi is a term applied to an abortion brought about by medication taken to induce or terminate it. This can be accomplished with a variety of may be a risk to the mother’s physical and mental health. – The foetmedications given either as a single or a series of pills. There are two types of Abortions – Medical Abortion- Surgical Abortion At our Safe abortion clinics, we specialize in Medical Abortions and you must be 18 years and above. You may choose to do an abortion if you are less than 20 weeks pregnant from the first day of your last period. However an Abortion is performed if approved by a medical practitioner under the following conditions i.e. – The pregnancy us may suffer with severe physical or mental abnormalities should the pregnancy not be terminated. – The pregnancy is a result of rape or incest. -The pregnancy may have a severe economic or social impact on the mother. Pregnancies can be a daunting prospect for many women and teen girls especially without appropriate financial or social support. Therefore choosing the correct Abortion method is essential. SAFETY? Legal Medical Abortion is a safe Procedure. Infection rates are less than one percent, and less than 1 in 100 from first-trimester Abortions. Medical Abortion is safer for the mother than carrying a pregnancy to term and safe when performed by trained doctors. +27717852514 HOW DOES IT FEEL TO DO A MEDICAL ABORTION? You may experience some or all of the following signs – Stomach cramps – Thirsty / vomiting – Running stomach / diarrhoea You will then return in 1 week’s time for a follow /check up to make sure everything worked properly then given Womb cleaning pills to clean your womb internally.We Have Branches In: ALBERTON, ALEXANDRA, BENONI, BRAKPAN, BLOEMFONTEIN, BOKSBURG CLINIC, BRAKPAN, BURGERSFORT, LIMPOPO, CAPE TOWN CLINIC, GOOD WOOD, KWAZULU NATAL, CENTURION, DAVEYTON, DUDUZA, DURBAN, EASTERN CAPE.
